PANTONE COLOR MATCHING

Approved artwork and Pantone references guide material selection and color matching. Production checks review fabric, print or embroidery appearance, stitching, edges, headers and hardware against the confirmed specification.

- Fabric and weight confirmed by application
- Color direction reviewed before production
- Finished product checked against approved requirements

FREQUENTLY ASKED QUESTIONS

Practical information for custom flag programs and sampling.

01 What is the minimum order? Can I order samples?

Regular sizes have no MOQ. Samples can be made from 1-2 pieces. Bulk production follows sample approval, and the sample charge may be credited against a large order.

02 How long do sampling and bulk production take?

Sampling: 5-7 working days after artwork confirmation. Standard bulk production: 15-25 days; orders over 20,000 pieces may require about 35 days. Expedited schedules can be discussed.

03 How is shipping cost estimated?

Air shipment is usually calculated by volume or chargeable weight. As a reference only, a 3 × 5 ft U.S. flag shipment of 300 pieces may cost about USD 105 by standard parcel or USD 39 by budget parcel. Final cost depends on quantity and destination.

04 Do you ship to Amazon FBA?

Yes. We understand Amazon FBA requirements, including carton marks, SKU labels, moisture-resistant vacuum packing and compliance labels, and can arrange direct warehouse delivery.

05 Can I provide custom artwork? Are there limitations?

Yes. Any artwork, national-flag size or original design can be reviewed. Complex designs are evaluated for process requirements and quoted after artwork review.

06 How can I contact you and what payments are supported?

Email flagswin@flag-win.vip or contact us by WhatsApp. Payment options can include T/T, PayPal and letter of credit. First-time cooperation can begin with a paid sample.
